SKILLS

- Typescript, JavaScript (ES2015–2019)
- React, Redux, Zustand
- HTML5, CSS3, Sass (SCSS), BEM
- Node.js, Express
- SQL, PostgreSQL, MongoDB
- Git/GitHub, VS Code
- Chrome Developer Tools (incl. React),
- NPM, Webpack
- 100+ solved algorithmic tasks.
- OOP understanding
- Polish (native)
- English (C1)

EDUCATION

Mate academy
Full-stack Developer
Comprehensive Course
2023-2024

- Implementing **React** applications with reusable code using **JSX**, **hooks**, **React-router**, **Redux**, **ClassNames** and functional components.
- Creating pixel-perfect, responsive landing pages based on **Figma** using **HTML**, **CSS**, **SASS**.
- Used version control system (**Git**) to manage code and collaborate with other developers.
- Designing and developing servers and APIs with **Node.js** and **Express**.
- Designing **SQL** databases.

Cosinus Technical School
Information Technology Technician
Vocational diploma: 351203
2021 - 2023

ABOUT ME

Driven **Full-Stack Developer with a passion** for crafting seamless digital experiences. Proficient in translating Figma designs into pixel-perfect web pages using **HTML5, CSS3, and SASS**. Embraced the power of **JavaScript** and **TypeScript**, expanding my capabilities to develop dynamic and responsive web applications, particularly enjoying the versatility of **ReactJS** and its ecosystem, including **Redux**. With a solid foundation in **SQL** and **Node.js**, I excel in building backend systems to complement front-end functionality. My journey as a developer is enriched by my background as a professional musician. Years of honing my craft have instilled in me a keen **sense of creativity, attention to detail, and discipline**—all of which seamlessly translate into my development work. I understand the importance of harmony, rhythm, and composition—traits that I bring to my coding practice, ensuring elegant solutions that resonate with users. My diverse experiences enable me to approach challenges from multiple perspectives, fostering innovation and **out-of-the-box problem-solving**. Passionate about leveraging technology to create meaningful experiences, I am committed to continuous learning and growth in the ever-evolving landscape of web development.

EXPERIENCE

Full-stack Developer Volunteer
2024 – Present

NGO - Fundacja Na Rzecz Pomocy Chorym Na Białaczki

- Working on the "Hematorun" **React** application.
- Implementing the front end of the application according to Figma design (**React**, **Zustand**, **Formik**, **CSS Modules**).
- Implementing reusable **React** components.
- Implementing the back end of the application according to the guidelines (**Node.js**, **Express**, **MongoDB**).

PROJECTS

Commercial:

Hematorun web application
05.2024 – Present

Full-stack Developer

- Application for a charity run, which contains information about the race, a photo gallery, allows participants to register for the race, process payment for the participation package, and track their results.
- Front end developed with **React**, **Zustand**, **Formik**, **CSS Modules**.
- Back end developed with **Node.js**, **Express**, **MongoDB**.

Personal:

Personal Portfolio React App
Code link

- Fully responsive **React** application.

2048 game
Code link

- 2048 game clone written in **JavaScript, HTML5, CSS3**

🔗 Bose landing page
Code link

- Fully responsive landing page
- Developed with **HTML5, CSS3, SASS, JavaScript**.
